

Works Notice

February 2020

Roma Street site construction update

In February, demolition and excavation activities will continue at the Roma Street construction site.

Tunnel access shaft underway

Work is underway on the corner of Roma Street and Parkland Boulevard in preparation for tunnelling, and excavation of the new underground station. Upcoming activities at the site include:

- Construction of an access shaft, including rock breaking and loading material into trucks and removing from site
- Lining and reinforcing the access shaft. The shaft will be progressively reinforced with ground support anchors and concrete
- Installing an acoustic shed involving steel work and concreting
- Installing various utility services needed to operate the site.

Demolition continues

Demolition of Hotel Jen is underway, and will soon progress to the East and West Towers of the Brisbane Transit Centre. Upcoming activities include:

- Disconnecting and relocating utility services
- Removing internal fittings and fixtures
- Installing scaffolding around the buildings
- Safely removing any hazardous materials found
- Installing overhead footpath protection gantries, hoarding and fencing
- Structural demolition using large equipment
- Removing demolition waste
- Installing ground support anchors along the northern boundary of the site.

Nearby businesses and residents may experience an increase in noise as demolition activities progress.

Upcoming night work

The following work will occur intermittently at night in February between **6:30pm and 6:30am, Monday to Saturday**:

- Installing underground power cables along Makerston and Roma streets to supply the site
- Identifying and relocating underground utility services
- Installing overhead protection gantries over the footpath on Roma Street
- Installing and removing scaffolding around the perimeter of the buildings
- Geotechnical investigations in and around the site
- Installing signalised pedestrian crossings and other traffic changes at the intersection of Roma and Herschel streets. A separate notice will be distributed about this work
- Electrical work inside the Brisbane Transit Centre
- Installing the acoustic shed at the tunnelling site on the corner of Roma Street and Parkland Boulevard.

Extended hours work

The following work will continue until **10pm, Monday to Friday**, at the site on the corner of Roma Street and Parkland Boulevard:

- Excavation using large machinery
- Loading excavated material into trucks and removing from site
- Installing ground support anchors and concreting.

Weekend work in the rail corridor

From **2:00am Saturday 15 until 3:00am Monday 17 February** work will be carried out in the rail corridor at Roma Street station. A separate notice will be distributed about this work.

Investigation work

Investigation activities continue in and around the site, including:

- Survey, including installing survey marker points on roads, footpaths and bridges
- Locating existing underground utility services using vacuum excavation trucks
- Geotechnical investigations using a drill rig.

Work hours

Works will generally occur between **6:30am and 6:30pm, Monday to Saturday**, weather and construction conditions permitting.

Due to traffic and rail restrictions some works will occur outside of these hours (refer over page).

Workers may arrive onsite approximately one hour prior to the planned start time to prepare for the day's activities.

What to expect

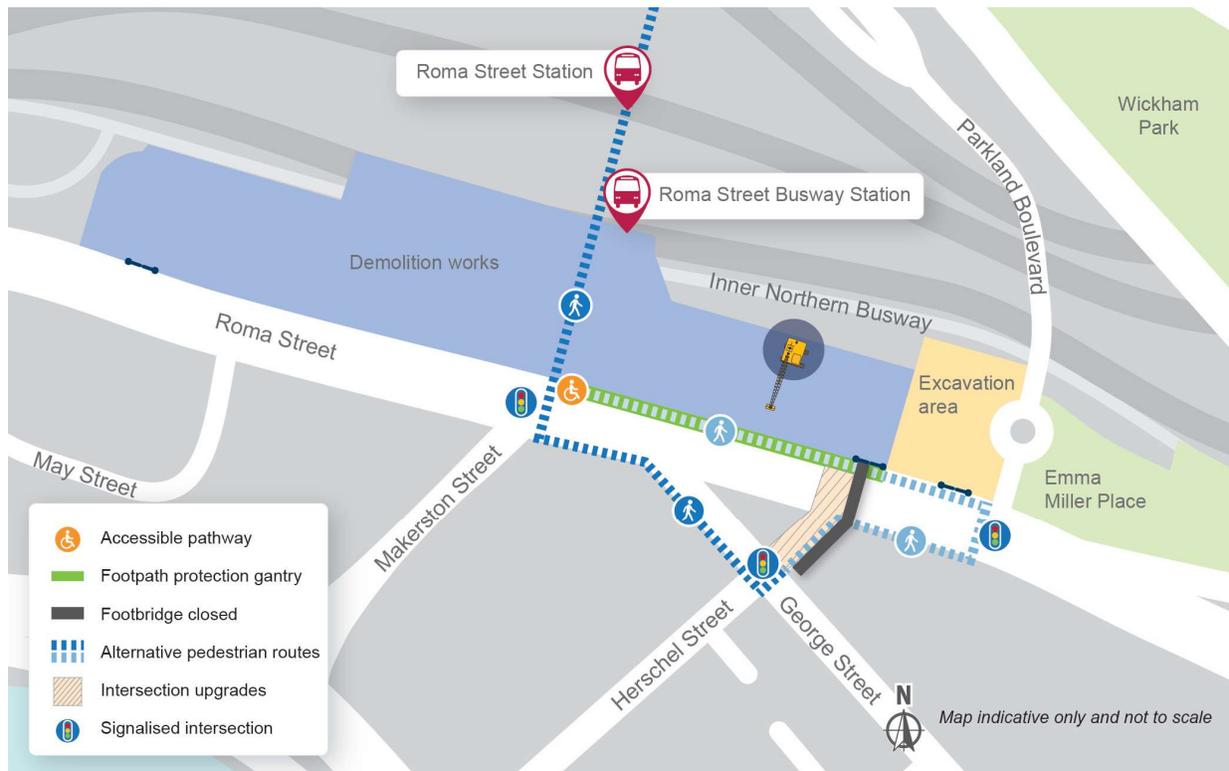

- An increase in construction workers and vehicles in the area
- A potential increase in noise, dust and vibration. These impacts will be reduced as much as possible
- Temporary changed traffic conditions, including lane closures, footpath diversions and reduced speed limit. Traffic control will be in place where required to maintain the safety of road users, the community and workers.

Work is subject to relevant approvals and suitable weather conditions.

Every effort will be made to keep disruption to a minimum for residents and businesses in close proximity to the project site.
