

# Works Notice

December 2021 / January 2022

## Construction update Yeronga station

During November 2021, UNITY Alliance installed sections of the new Yeronga station pedestrian overpass over the rail corridor. During December, construction will continue at Yeronga station.

Due to wet weather throughout November and more predicted rain for December, construction at Yeronga station has been delayed. We are developing a new timeline with the aim to reopen the station in January 2022.

For up to date information on our works visit our website or alternatively sign up to receive updates via email. A separate notification will be distributed prior to the station reopening. Thank you for your ongoing patience while we rebuild Yeronga station.

### Details of work

The following activities are scheduled to occur between 6:30am and 6:30pm, Monday to Saturday, during December and January 2021, weather and construction conditions permitting:

- Continuing utility investigations to prepare for foundation works on the corner of Cowper Street and Fairfield Road, for construction of the new lift shaft and pedestrian overpass vertical structures
- Installation of station building and platform services
- Continuing steel fixing, formworks and concrete pours for station platforms
- Continuing installation of structural steel and concrete on platforms 1, 2 and 3
- Track and maintenance work between Yeronga and Fairfield stations.

### Out of hours work

The following activities will occur outside the project's normal working hours, as outlined below:

Location	Date and hours of work	Type of work
Fairfield Road, Yeronga	Between 7:00pm and 5:00am intermittently during December 2021	<ul style="list-style-type: none"> <li>• Delivery of structural steel and reinforcement materials into the rail corridor.</li> </ul>
Yeronga station	Between 7:00pm and 5:00am intermittently during December 2021	<ul style="list-style-type: none"> <li>• Earthworks and spoil removal within the rail corridor, including the use of vacuum trucks</li> <li>• Moving steel reinforcement, steel fixing, formwork, block work and installing service conduits within the rail corridor</li> <li>• Concrete pours, using a concrete pump and concrete trucks.</li> </ul>
Yeronga station	Between 5:00am Saturday 25 December 2021 and 2:00am Tuesday 4 January 2022	<ul style="list-style-type: none"> <li>• Moving steel reinforcement, steel fixing, formwork, and installing service conduits within the rail corridor</li> <li>• Concrete pours, using a concrete pump and concrete trucks.</li> </ul>

Cross River Rail won't just transform Brisbane, it will transform the way we travel across South East Queensland. But building Cross River Rail means changes to travel and transport services during construction. Plan your journey by downloading the MyTransLink app, visit [translink.com.au](http://translink.com.au) or call 13 12 30.

## Temporary intermittent traffic changes – Fairfield Road and Lake Street (Dec 21 to Jan 22)

### What to expect

During these works you may notice some intermittent disruptions such as:

- Intermittent traffic changes on Fairfield Road between Kadumba Street and Yeronga Street (refer to map above). At times Fairfield Road will be reduced to one lane in each direction. During these intermittent changes the StationLink bus stops on Fairfield Road will be available near Ovendeane Street. Please observe signage and traffic control to safely navigate through the area
- Intermittent temporary closures on Lake Street between Killarney Street and Christensen Street.
- Light vehicles, trucks and machinery including excavators with hydraulic hammers, front end loaders, mobile cranes, vacuum trucks, concrete trucks, concrete pump trucks, small power tools, drills, saws, minor vibrating equipment and mobile lighting towers to light work areas at night
- Changes around your local area such as construction vehicles, traffic management signs and personnel
- Some noise, vibration and dust associated with the use of heavy machinery and equipment
- Placement of temporary fencing around construction areas.

We appreciate your patience during construction and will continue to update you as work progresses.
