Plan Control

This Indigenous Cultural Heritage Management Sub-Plan (the plan) has been developed for the Cross River Rail – Rail, Integration and Systems Project.

Approvals, Revisions and Amendments

Plan approval is in accordance with Section 4.1.2 of the Construction Environmental Management Plan (C-EMP).

Plan reviews and updates is in accordance with Section 7 and Section 8.1 of the C-EMP.

Revision Details

Revision	Remarks
A	Final C-EMP for Review and endorsement by the Environmental Monitor
B	Incorporation of IEM review comments from 10 September 2019
00	Endorsed by IEM on 20 September 2019, ready for upload on the Project's Website
01	6 monthly review and updated to incorporate relevant changes linked to RfPC-7 and Updated O-EMP The update does not include new or additional Relevant Project Works
02	Endorsed by IEM
03	Issued for review to the IEM 6 monthly review No updates required because of: <ul style="list-style-type: none"> • RfPC-11, and • The addition of the Southern Area Scope of Works (Dutton Park and Buranda)
04	Issued for Use

1 Purpose of this Plan

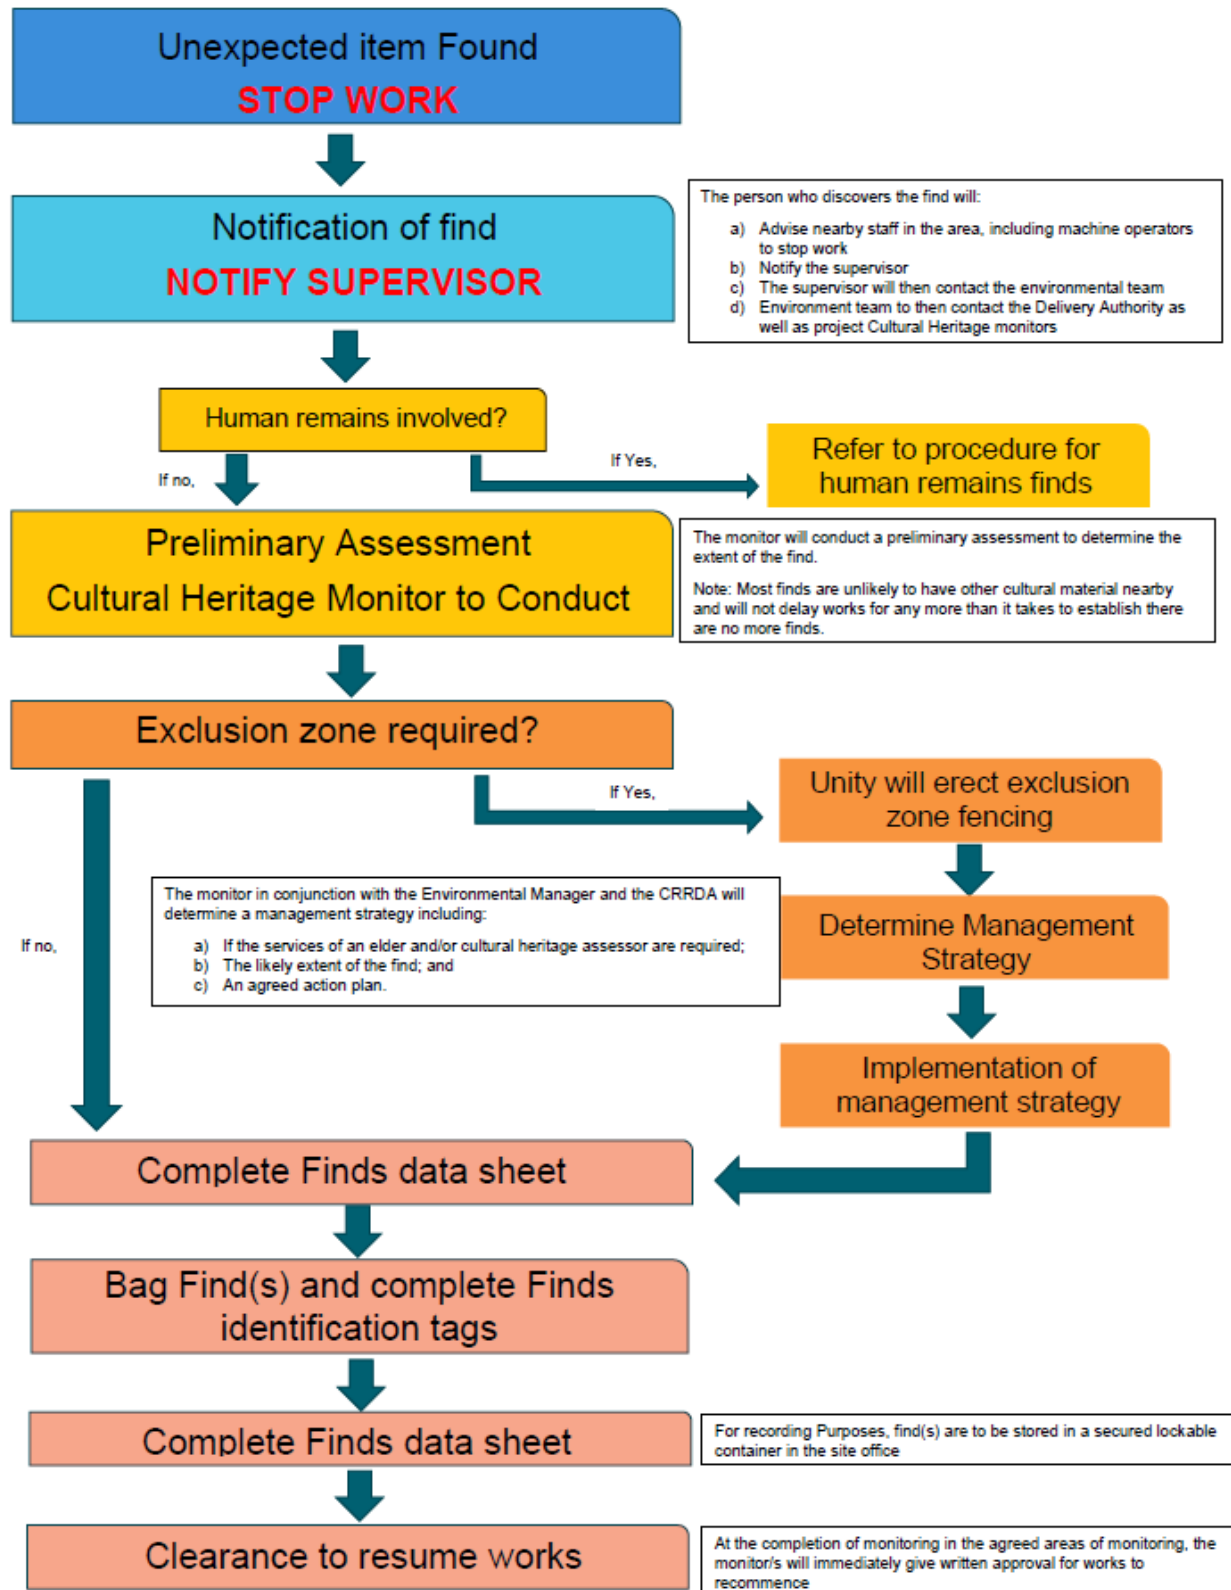

This sub-plan has been prepared to demonstrate how UNITY will comply with:

- Coordinator-General's Condition of Approval – Condition 2
- Final Outline-Environmental Management Plan (O-EMP) – Outline Cultural Heritage Management Plan (CHMP).

Component	Details
Environmental Outcome(s)	<ul style="list-style-type: none"> • Construction activities are managed to maintain cultural heritage values of sites, places and values within and adjacent to construction worksites.
Relevant Area	<ul style="list-style-type: none"> • Site wide • Key areas: Northern area in the vicinity of York's Hollow and Victoria Park, Exhibition Station, Clapham Yard and all waterways including: <ul style="list-style-type: none"> – Enoggera/Breakfast Creek – Moolabin Creek – Rocky Water Holes Creek.
Relevant Works / Activities	<ul style="list-style-type: none"> • Vegetation clearing • Subsurface disturbance associated with: <ul style="list-style-type: none"> – Bulk earthworks – Trenching for elements, such as PUP relocation and installation – Drainage works – Structure works, such as piling for bridge piers and signalling.
Performance Criteria	<ul style="list-style-type: none"> • Comply with the CHMPs prepared and approved in accordance with the Aboriginal Cultural Heritage Act 2003 • All personnel involved in or supervising significant disturbance works have completed the cultural heritage induction course specified in the approved CHMPs developed by the Delivery Authority with the Relevant Aboriginal Parties under Part 7 of the <i>Aboriginal Cultural Heritage Act 2003</i> (Qld) Construction impacts, such as excessive dust deposition, excessive vibration or excessive settlement, do not affect places of Indigenous cultural heritage.
Sustainability	Her-1, Her-2, Sta-1 and Sta-4.
Mitigation Measure	<ul style="list-style-type: none"> • The project is constructed in accordance with the approved designs which must be compliant with the CGCR Environmental Design requirements as detailed in the Environmental Design report • The Environment Manager oversees cultural heritage management tasks and activities • The Environmental Manager has copies and maintains access to the Approved CHMPs • The Environmental Manager ensures the key obligations under the CHMPs are adequately communicated to all relevant staff and subcontractors • Prior to commencing significant ground disturbance in the vicinity of the Moolabin Creek and Breakfast Creek and in select locations in Clapham Yard, undertake archaeological test pitting in accordance with the Relevant Aboriginal Party Approved CHMP • All works must be undertaken in accordance with the Approved CHMP to ensure value of cultural sites adjacent to worksites is maintained • All personnel involved in, or supervising construction works will complete the heritage portion of the site induction and all high risk indigenous heritage areas will be identified in the workpack for any works that are in proximity to these areas. • Prior to works in close proximity to high risk indigenous heritage locations, toolbox talks will be organised in order to brief teams on the specific heritage of the areas and the find process. • All activities are undertaken in accordance with requirements of the approved CHMP for the project

Component	Details
	<ul style="list-style-type: none"> • In the event potential artefacts are discovered in areas outside the designated monitoring area, the works will be managed in accordance with the Unexpected Find Procedure • All employees, contractors and subcontractors working on the site are made aware of project heritage requirements through a training and induction process. This training and induction will be in accordance with the requirements specified in the approved CHMP • All employees are informed of their obligations to notify the Environment Manager of any cultural heritage finds • Work will cease upon discovery of any object that may be a heritage item within the meaning of the relevant legislation, including likely human remains. No works can continue until a permit or clearance has been received from the relevant authority. This does not include the test pitting works as monitors will be on site to clear finds as they are encountered. • All necessary approvals are to be obtained prior to commencing any works in areas of known or potential heritage items • All cultural heritage items and places to be preserved are clearly demarcated and shown on relevant site plans • Formal documented engagement are maintained with relevant heritage groups or traditional owners throughout the project.
Monitoring	<ul style="list-style-type: none"> • Monitoring will be undertaken in accordance with the approved CHMP(s).
Reporting	<ul style="list-style-type: none"> • Reporting will be undertaken in accordance with the approved CHMP(s) • Alternative reporting will be in accordance with Section 8.2 of the C-EMP.
Corrective Action	<ul style="list-style-type: none"> • Management of corrective actions will be undertaken in accordance with the approved CHMP(s) • Alternatively, management of corrective actions will be as per Section 6 of the C-EMP.
Auditing	<ul style="list-style-type: none"> • Auditing will be undertaken in accordance with the approved CHMP(s) • Alternative auditing will be as per Section 7 of the C-EMP.

Attachment 1 Unexpected Finds Procedure

Attachment 2 Suspected Human Remains Finds Procedure
