

Works Notice

June 2023

Construction update Dutton Park station

During May 2023, UNITY Alliance continued to demolish Dutton Park station. In June 2023, work will continue on retaining wall structures, construction of the new platforms 1 and 2, drainage and noise walls.

Details of work

The following activities are scheduled to occur between 6:30am and 6:30pm, Monday to Saturday during June 2023, weather and construction conditions permitting:

- Continue construction of a new retaining wall near Cope Street and the Annerley Road and Cornwall Street intersection
- Continue construction of platforms 1 and 2 including the installation of drainage and services
- Construction of a shotcrete retaining wall within the rail corridor underneath the Wilkins Street pedestrian overpass
- Construction of a rail corridor maintenance access and noise barrier alterations at Fenton Street, Fairfield
- Continue construction of a noise barrier between Cope and Sampson streets
- Commence construction of the new station entrance on Noble Street including earthworks and service relocation.

Out of hours work

The following activities will occur outside the project's normal working hours, weather and construction conditions permitting:

Location	Date and hours of work	Type of work
Between Ensign Avenue and Kent Street	Intermittently between 6:30pm and 6:30am throughout June 2023	<ul style="list-style-type: none"> • Occasional equipment and materials deliveries to site • Service identification using a vacuum truck around the station precinct.
	Between 12:00am Saturday 17 and 3:00am Monday 19 June 2023	Day and night shift <ul style="list-style-type: none"> • Track removal, bulk earthworks and removal of material from site • Piling for retaining wall construction near Kent Street including concrete deliveries and pours • Construction of a shotcrete retaining wall within the rail corridor underneath the Wilkins Street pedestrian overpass and at the end of Sampson Street • New platform 1 and 2 construction and drainage works • Installation of overhead electrical structures, signalling equipment, cable routes and pits within the rail corridor.

What to expect

During these works you will notice some disruptions such as:

- Access into the corridor will be via Annerley Road, Cope Street, Fenton Street, Noble Street, Kent Street, Sampson Street, Mildmay Street and Ensign Avenue. Traffic management will be set up to manage an increase in vehicle movements in these areas. Please follow the direction of traffic control and signage and allow for extra time to travel
- Increased noise, vibration and dust associated with the use of heavy machinery and equipment
- Trucks and machinery including concrete trucks and pumps, frontend loaders, excavators with rock breakers, vacuum trucks, piling rig, mobile cranes, small power tools, minor vibrating equipment and mobile lighting towers to light work areas at night.

We appreciate your patience during construction and will continue to update you as work progresses.

Rail corridor access points, traffic changes and pedestrian detours during June 2023
