

Works Notice

October 2023

Pimpama station construction update

ADCO Constructions is continuing major construction activities along Kosciuszko Circuit and site compound activities on the corner of Mebbin Street and Gainsborough Drive. Further construction work will also continue within the rail corridor.

Construction of the new Pimpama station access road is nearing completion with drainage and road pavement works continuing along the Old Pacific Highway between Pimpama Jacobs Well Road and Mebbin Street.

New signalised intersection

Early works are planned to be complete in late 2023 (weather and construction permitting). Once complete, the new signalised intersection will be operational and this section of the Old Pacific Highway and Bedford Road will fully reopen to the public.

While major construction continues, the access into the station will be restricted to construction access only and traffic controls will be in place to ensure the safe entry and exit of heavy vehicles.

Please see the map below for details on the design of the new intersection and station access road.

Major construction

Eastern works area – adjacent to Kosciuszko Circuit and Great Sandy Circuit

Western works area – corner of Mebbin Street and Old Pacific Highway

Main site compound – corner of Mebbin Street and Gainsborough Drive.

Throughout October, major construction activities will continue, including:

Eastern works area

- Concrete pouring and shotcreting for station support infrastructure
- Piling works for pedestrian overpass and Platform 1 and 2 lift shafts.
- Platform structural steel installation

Western works area

- Earthworks for the station car park.
- Piling works for pedestrian overpass and Platform 1 and 2 lift shafts.
- Stormwater drainage installation in both corridor and future carpark area
- Minor vegetation clearing works to allow for installation of undertrack crossings.
- Installation of under track crossings (conduits) for services (e.g. communications and electrical cabling) in both the eastern and western works area.

Access to surrounding properties will be maintained during the works with possible delays due to truck movements via traffic control management.

Rail corridor works – adjacent to Kosciuszko Circuit, Great Sandy Circuit and Gainsborough Drive.

Rail corridor works are planned to occur outside normal working hours during scheduled track closures, with high impact activities planned between the hours listed below where possible.

Rail corridor works (nightworks if required) are scheduled, pending construction and weather conditions, for:

- 12:30am to 4:00am Wednesday 11 and Thursday 12 October 2023
- 6:00am Saturday 14 October to 6:00pm Sunday 15 October 2023
- 12:30am to 4:00am Tuesday 17 October, Wednesday 18 October and Thursday 19 October 2023.

Rail corridor work in October will include:

- Excavation and earthworks.
- Transport of excavated material from the eastern rail corridor to the western works area.
- Piling activities for the station platforms and associated infrastructure.
- Installation of platform structural steel
- Survey and on-track monitoring.

Early Works – station access road and drainage

Station access road construction and drainage works – within worksite and along the Old Pacific Highway between Pimpama Jacobs Well Road and Mebbin Street.

- Resurfacing the road pavement and laying asphalt on Bedford Road and the Old Pacific Highway.
- Earthworks in the road shoulder and verge of the southbound lane of the Old Pacific Highway between Pimpama Jacobs Well Road and Bedford Road
- Electrical works in preparation for the new signalised intersection, including installing conduits, cabling and lighting.
- Pouring concrete and constructing shared paths, kerb channels and median islands.
- Cleaning of culverts using a vacuum truck on Old Pacific Highway.
- Temporary changes to pedestrian movements around the work site.
- Ongoing temporary closure of access into Bedford Road from the Old Pacific Highway. Intermittent traffic changes on Old Pacific Highway including lane closures. Please follow the instructions of traffic control through this area.

Key: Work hours

	Standard construction hours Works will be undertaken between 6.30am until 6.30pm Monday to Saturday. Truck movements and temporary traffic holds will be reduced during peak hour periods to minimise impacts to motorists.		24 hours Rail corridor works are undertaken 24 hours a day, 7 days a week with high impact activities planned between 6.30am to 6.30pm where possible. Queensland Rail is assisting with enabling works to support the construction of Pimpama station including signalling, overhead line, and telecommunication activities.
--	---	--	--

What to expect

- Traffic controls will be in place along the Old Pacific Highway and Bedford Road, including reduced speed limits and minor traffic holds to assist with carrying out construction activities safely.
- Construction activities may generate increased levels of noise, dust, vibration and odour in the area associated with the works being undertaken.
- Lighting will be required during the rail corridor works.
- Increase in workforce and construction vehicle movements around the station site for transport of materials, equipment, and machinery.
- Pedestrian and vehicle access along Kosciuszko Circuit, Great Sandy Circuit and Gainsborough Drive will be maintained during these works with traffic control to assist pedestrians and motorists.
- Ongoing traffic movements with trucks transporting excavated material from the eastern rail corridor on Kosciuszko Circuit to the western works area and main site compound.
- Please be aware of changed traffic conditions and adhere to reduced speed limits.

Work areas and vehicle movements

Changes to the way you travel

These three new stations on the Gold Coast Line will transform the way we travel across South-East Queensland but building them means changes to travel and transport services during construction.
