

# Works Notice

November 2023

## Pimpama station construction update

**ADCO Constructions is continuing major construction activities along Kosciuszko Circuit and site compound activities on the corner of Mebbin Street and Gainsborough Drive. Further construction work will also continue within the rail corridor.**

**Construction of the new Pimpama station access road is nearing completion with road pavement works continuing along the Old Pacific Highway and Bedford Road.**

### New signalised intersection – access arrangements

Early works are planned to be complete in late 2023 (weather and construction permitting). Once complete, the new signalised intersection will be operational and this section of the Old Pacific Highway and Bedford Road will fully reopen to the public.

While major construction continues, the access into the station construction site will be restricted to construction access only and traffic controls will be in place to ensure the safe entry and exit of heavy vehicles.

Pimpama City shopping centre stage 3 is set to open in December 2023. The new access road will service the future Pimpama station and will be the main entry for Pimpama City stage 3. The entry will be fully operational for shopping centre customers.

Please see the map below for details of the new intersection.

## Major construction

**Eastern works area** – adjacent to Kosciuszko Circuit and Great Sandy Circuit

**Western works area** – corner of Mebbin Street and Old Pacific Highway

**Main site compound** – corner of Mebbin Street and Gainsborough Drive.

Throughout November, major construction activities will continue, including:

### Eastern works area

- Excavation and earthworks within the eastern side of the rail corridor
- Installation and assembly of structural steel to construct Platform 1
- Concrete pouring and curing to support infrastructure (e.g. retaining walls)
- Piling and installation of the support pedestal for the pedestrian bridge
- Construction of the lift well for Platform 1
- Installation of under track crossings (conduits) for services (e.g., communications and electrical) in both the eastern and western works areas.

### Western works area

- Earthworks for the station car park
- Stormwater drainage works in both corridor and future carpark area
- Minor vegetation clearing works to allow for installation of undertrack crossings
- Installation of under track crossings (conduits) for services (e.g., communications and electrical) in both the eastern and western works areas.
- Piling and installation of ground beams for Platform 2 structural steel foundations

Access to surrounding properties will be maintained during the works with possible delays due to truck movements via traffic control management.

**Rail corridor works** – adjacent to Kosciuszko Circuit, Great Sandy Circuit and Gainsborough Drive.

Rail corridor works are planned to occur outside normal working hours during scheduled track closures, with high impact activities planned between the hours listed below where possible.

Rail corridor works (nightworks if required) are scheduled, pending construction and weather conditions, for:

- 6am Saturday 4 to 6pm Sunday 5 November 2023
- 6am Saturday 18 to 6pm Sunday 19 November 2023

Rail corridor work in November will include:

- Excavation and earthworks within the eastern side of the rail corridor.
- Transport of excavated material from the eastern rail corridor to the western works area.
- Installation and assembly of structural steel to construct Platform 1

- Installation of under track crossings (conduits) for services (e.g., communications and electrical) in both the eastern and western works areas.

## Early Works – station access road and drainage

**Station access road construction and drainage works** – within worksite and along the Old Pacific Highway between Pimpama Jacobs Well Road and Mebbin Street.

- Testing and commissioning of the new signalised intersection, including traffic lights and pedestrian crossings.
- Construction of shared paths, kerb channels and raised median islands.
- Line marking on the station access road, Bedford Road and the Old Pacific Highway.
- Asphalt cutting for installation of traffic light sensor cables for the new signalised intersection.
- Landscaping in the verge along the Old Pacific Highway between Mebbin Street and Pimpama Jacobs Well Road.
- Temporary changes to pedestrian movements around the work site.
- Ongoing temporary closure of access into Bedford Road from the Old Pacific Highway. Intermittent traffic changes on Old Pacific Highway including lane closures, please follow the instructions of traffic control through this area.

From Sunday 5 November 2023, **night works** are required to be undertaken to complete asphaltting on Bedford Road and the Old Pacific Highway. Works will be undertaken between **7pm and 5am** for approximately 1 week, weather and construction permitting.

## Key: Work hours

	<p><b>Standard construction hours</b></p> <p>Works will be undertaken between 6.30am until 6.30pm Monday to Saturday. Truck movements and temporary traffic holds will be reduced during peak hour periods to minimise impacts to motorists.</p>		<p><b>24 hours</b></p> <p>Rail corridor works are undertaken 24 hours a day, 7 days a week with high impact activities planned between 6.30am to 6.30pm where possible.</p> <p>Queensland Rail is assisting with enabling works to support the construction of Pimpama station including signalling, overhead line, and telecommunication activities.</p>
--	--	--	---

## What to expect

- Traffic controls will be in place along the Old Pacific Highway and Bedford Road, including reduced speed limits and minor traffic holds to assist with carrying out construction activities safely.
- Construction activities may generate increased levels of noise, dust, vibration and odour in the area associated with the works being undertaken.
- Lighting will be required during the rail corridor works.
- Increase in workforce and construction vehicle movements around the station site for transport of materials, equipment, and machinery.

- Pedestrian and vehicle access along Kosciuszko Circuit, Great Sandy Circuit and Gainsborough Drive will be maintained during these works with traffic control to assist pedestrians and motorists.
- Ongoing traffic movements with trucks transporting excavated material from the eastern rail corridor on Kosciuszko Circuit to the western works area and main site compound.
- Please be aware of changed traffic conditions and adhere to reduced speed limits.
