

Works Notice

November 2023

Construction update Rocklea station

In October 2023, UNITY Alliance continued construction on the new Rocklea station overpass, installation of platform canopies and station entrance. During November, service relocation works, overpass fit out, installation of station lifts and access stairs, drainage works, retaining walls and platform construction will continue.

Accessibility re-build completion update

Rocklea station is currently closed for a full accessibility upgrade. The station will remain closed until mid-2024 to ensure all critical works can be complete.

Details of work

The following activities are scheduled to occur between 6:30am and 6:30pm, Monday to Saturday during November 2023, weather and construction conditions permitting:

- Continue construction of inground services including excavation for drainage and installation of water main protection (e.g., concrete casing), conduits and pits
- Continue installation of station platform canopy steel, formwork and concreting
- Continue fit out of the new pedestrian overpass including electrical, lighting and flooring
- Installation of access stairs structural steel and fit out
- Installation of structural steel and pre-cast concrete panels for lift structures
- Installation of building services and fit out.

The following activities will occur outside the project's normal working hours, as outlined below:

Location	Date and hours of work	Type of work
Rocklea station	Intermittently between 6:30pm and 6:30am during November 2023	<ul style="list-style-type: none"> • Delivering materials and equipment onto station platforms and removal of materials from site • Station platform and building concrete pours, including dewatering using vacuum trucks when required • Station canopy construction including welding and grinding.
Rocklea station and rail corridor	<p>Between 2:00am Saturday 11 and 3:00am Monday 13 November 2023</p> <p>Between 6:00am Saturday 25 and 3:00am Monday 27 November 2023</p>	<ul style="list-style-type: none"> • Installation of structural steel for station buildings and canopies • Installation of overhead electrical wire foundations and masts • Cable service route installation including excavation (and drilling), and installation of under track crossings for services (e.g., water, electrical) • Platform construction including installation of coping edge (tiles) and tactiles, buildings fit out and installation of services (e.g., water, electrical).

What to expect

During these works you may notice some intermittent disruptions such as:

- Trucks and machinery including frontend loaders, excavators with rock breakers, vacuum trucks, concrete trucks, pump trucks, mobile cranes, saws, small power tools, minor vibrating equipment, and mobile lighting towers to light work areas at night
- Changes around your local areas such as construction vehicles, traffic management signs and personnel
- Increased noise, vibration and dust associated with the use of heavy machinery and equipment.

Work areas and construction access points at Rocklea station

Cross River Rail won't just transform Brisbane, it will transform the way we travel across South East Queensland. But building Cross River Rail means changes to travel and transport services during construction. Plan your journey by downloading the MyTranslink app, visit translink.com.au or call 13 12 30.

We appreciate your patience during construction and will continue to update you as work progresses.
