

Works Notice

February – March 2024

Exhibition station construction update

During December 2023 and January 2024, construction continued on station retaining walls and a new railway bridge behind the John MacDonald Stand. During February and March 2024, fit out of the station shade canopy will continue, along with concrete works within the station plaza and for retaining wall construction. Works will commence on the shared path between the station entry and Bowen Bridge Road.

Details of work

The following activities are scheduled to occur between 6:30am and 6:30pm, Monday to Saturday during February and March 2024, weather and construction conditions permitting:

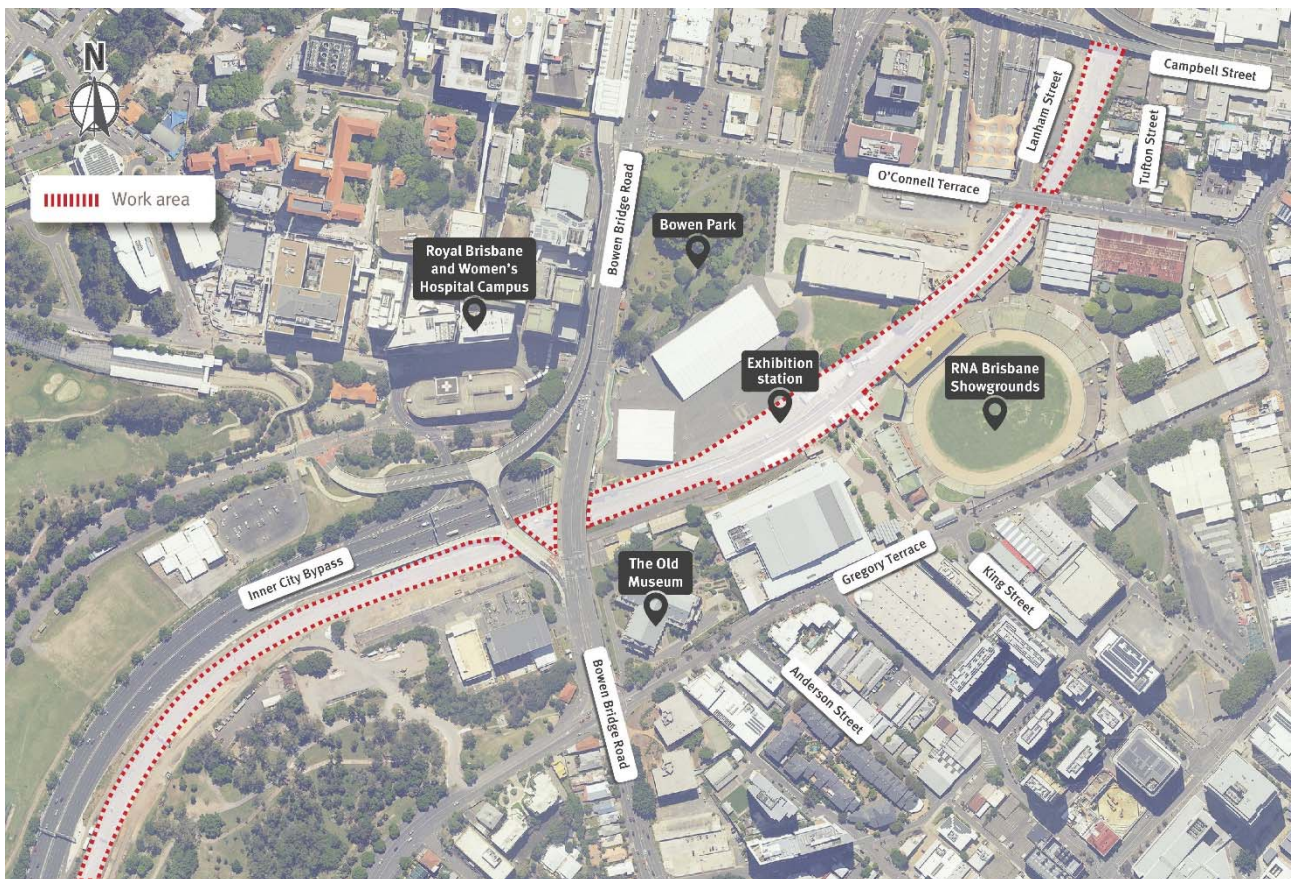

- Installation of mast foundations and structures for overhead electrical lines and cable routes and pits within the rail corridor between Campbell Street and south of Bowen Bridge Road
- Rock excavation within the rail corridor between Campbell Street and Bowen Bridge Road
- Commence construction of a new shared path between Bowen Bridge Road and the station entry
- Paving of the station platforms, installation of structural steel, concrete for the new station plaza and fit out of station canopy
- Construction of station retaining walls and new railway bridge
- Track work and maintenance.

Out of hours work

Additional activities will occur outside the project's normal working hours, as outlined below:

Work area Exhibition station precinct in February and March 2024

What to expect

During these works you may notice some intermittent disruptions such as:

- Use of large machinery such as excavators with hydraulic hammers to remove rock, cranes and concrete pumps for concrete structures between Campbell Street and Bowen Bridge Road and loading material into trucks for transport
- Changes around your local area such as construction vehicles, traffic management signs and personnel
- Increased levels of noise, vibration and dust associated with the use of heavy machinery and equipment
- Access into the rail corridor will be via the Victoria Park access road, Bowen Bridge Road, Lanham Street and O'Connell Terrace via the Brisbane Showgrounds.

If you would like to speak with a member of the UNITY Alliance Project Team about these planned works, please contact 1800 010 875 or email info@unityalliance.com.au anytime for more personalised consultation.

Cross River Rail won't just transform Brisbane, it will transform the way we travel across South East Queensland. But building Cross River Rail means changes to travel and transport services during construction. Plan your journey by downloading the MyTranslink app, visit translink.com.au or call 13 12 30.

We appreciate your patience during construction and will continue to update you as work progresses.
