

Works Notice

February / March 2024

Boggo Road and Southern Area - construction update

The Boggo Road main station building is starting to take shape, with the station building walls beginning to rise above ground level. Below ground, the team is focussing on rail installation, services installation and back of house room fit out.

Pedestrian and cycle bridge update

Over the coming months, out-of-hours work on the bridge will continue, with the installation of the concrete bridge deck, final bridge girder, canopy and privacy screens as well as bridge connecting ramp construction. Pedestrian elevators will be delivered for installation later this year.

Boggo Road station update

Throughout 2024, construction of the Boggo Road station continues with the structure rising above ground level.

Fit-out activities are also progressing down in the station box, with the installation of rail. Services installation and fit-out of the utilities rooms, which will service the future station. Key works are also taking place on the future platform level with 40% of the platform screen doors headers installed.

Southern Portal update

Permanent fit-out works of the tunnel portal will continue with mechanical and electrical (M&E) over the coming months, in preparation for rail and support brackets installation, and delivery of rail and precast track slabs.
