

# Works Notice

April - May 2024

## Normanby rail corridor construction update

During April and May 2024, UNITY Alliance will continue works within the Normanby Rail corridor including track modifications and commissioning of overhead electrical equipment.

**From 26 April 2024, overhead rail infrastructure between Exhibition station and the Normanby rail corridor will be energised, meaning overhead electrical wires will be 'live'. Test trains could be running through this area at any time.**

### Details of work

The following activities are scheduled to occur between 6:30am and 6:30pm, Monday to Saturday during April and May 2024, weather and construction conditions permitting:

- Removal of redundant structures within the rail corridor
- Drainage construction and rail service installation around the Northern Portal
- Earthworks and pavement construction around Bowen Bridge Road and the Northern Portal
- Installation of mast foundations, overhead electrical structures, signalling equipment and cable routes and pits within the rail corridor
- Surveying and investigating underground services, such as water, electricity and gas
- Track work and maintenance.

### Out of hours work

Additional activities will occur outside the project's normal working hours, as outlined below:

Location	Date and hours of work	Type of work
Spring Hill (Normanby rail corridor)	<b>Night shift</b> Intermittently between 6:30pm and 6:30am throughout April and May 2024	<ul style="list-style-type: none"><li>• Concrete deliveries and pours</li><li>• Installation of cable routes and pits within the rail corridor including pulling new cables in conduits</li><li>• Minor earthworks to support signalling installation</li><li>• Track work and maintenance.</li></ul>
	Between 2:00am Tuesday 2 April to 2:00am Friday 26 April 2024	<b>Day and night shift</b> <ul style="list-style-type: none"><li>• Track removal, installation of new turnouts and track construction</li><li>• Installation of mast foundations, overhead electrical structures, signalling equipment and cable routes and pits within the rail corridor</li><li>• Energisation of overhead rail infrastructure and signalling</li><li>• Earthworks, pavement construction and installation of drainage</li><li>• Concrete deliveries and pours</li><li>• Track work and maintenance.</li></ul>

## Normanby rail corridor work area

### What to expect

During these works you may notice some intermittent disruptions such as:

- Light vehicles, trucks and machinery including excavators with hydraulic hammers, mobile cranes, small power tools, drills, saws, minor vibrating equipment and mobile lighting towers to light the work areas at night
- Changes around your local area such as construction vehicles, traffic management signs and personnel
- Increased levels of noise, vibration and dust associated with the use of heavy machinery and equipment
- Access into the rail corridor will be via the Victoria Park access road off Gregory Terrace.

If you would like to speak with a member of the UNITY Alliance Project Team about these planned works, please contact 1800 010 875 or email [info@unityalliance.com.au](mailto:info@unityalliance.com.au) anytime for more personalised consultation.

**Cross River Rail won't just transform Brisbane, it will transform the way we travel across South East Queensland. But building Cross River Rail means changes to travel and transport services during construction. Plan your journey by downloading the MyTranslink app, visit [translink.com.au](https://translink.com.au) or call 13 12 30.**

We appreciate your patience during construction and will continue to update you as work progresses.
