Experience MORE on Albert Street

Are you working, living or staying near Albert Street?

Next time you are out and about, why not explore the Albert Street precinct and take a self-guided tour of the variety of restaurants and cafes, stop for a drink, stock up on supplies at a convenience store, get a relaxing massage or have a workout at one of the fitness facilities.

Whether you want to Eat, Stay, Shop or More, Albert Street has it all.

Albert Street station concept only.

CROSSRIVERRAIL

Cross River Rail is a new 10.2 kilometre rail line from Dutton Park to Bowen Hills, which includes 5.9 kilometres of twin tunnels under the Brisbane River and CBD.

By unlocking the bottleneck at the core of the network, Cross River Rail will be transforming travel to, from and through Brisbane by integrating with new roads and bus services.

The first CBD train station built in more than 120 years, Albert Street station will dramatically improve connectivity to the southern part of the CBD.

The new Albert Street underground station will provide improved public transport to residents, students and workers in the southern end of the city, creating a new hub at the corner of Albert and Mary Streets. A second station access point near Elizabeth Street will provide easy access to the Queen Street Mall.

Albert Street station concept only.

Albert Street vision

What is the Green Spine?

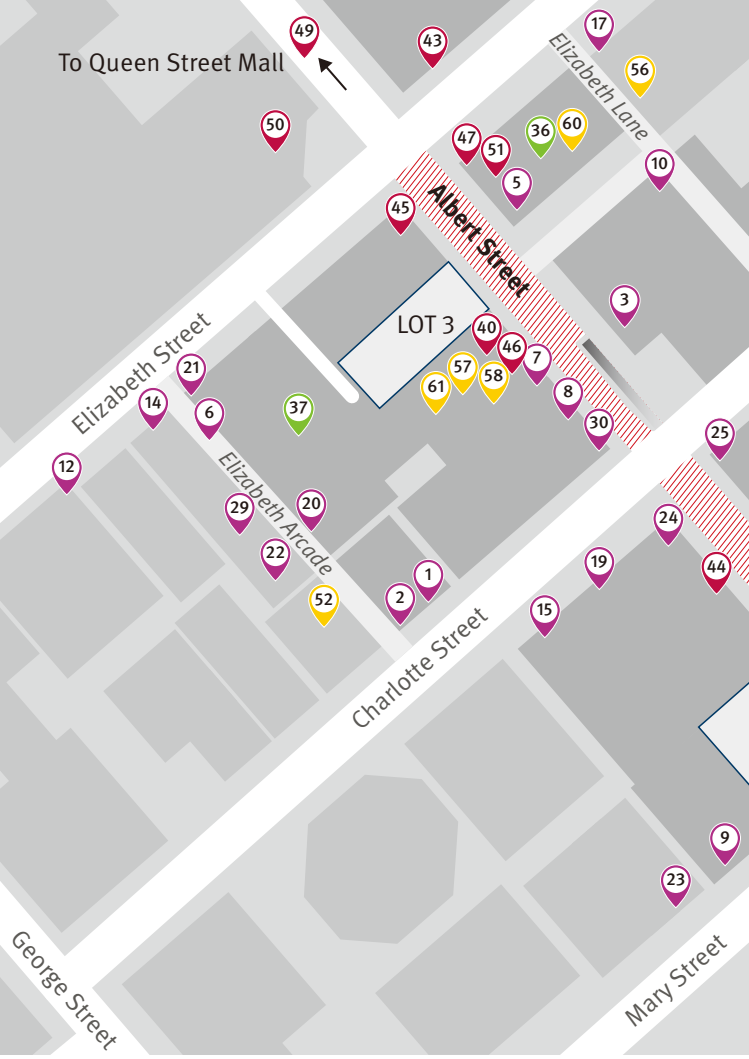

The Green Spine forms part of Council's Albert Street Vision and is a proposal to transform Albert Street into a tree-lined pedestrianised corridor, running from City Botanic Gardens in the south of the CBD all the way to Roma Street Parklands in the north.

As part of Cross River Rail, construction of a new public plaza connecting the Albert Street station main entrance on the corner of Mary Street with a second entrance nearer to Elizabeth Street will make this vision a reality for two whole city blocks.

The new corridor will have shaded seating and open, green landscaping, designed to take advantage of Brisbane's sub-tropical climate.

The public plaza will encourage people to dwell, interact in groups and enjoy city-life lived outdoors. Additional shade will be provided at the corner of Albert and Mary streets by the large awning that will extend from the new underground station entrance building.

Pedestrian movements along the new corridor will be prioritised with wide open spaces designed to cater for the tens of thousands of people who will enter and exit the new train station on a daily basis.
