

Works Notice

March 2026

Boggo Road station – Railway Terrace and Kent Street utility works

From late March 2026 to late 2026, intermittent short-term road closures will be in place on Railway Terrace and Kent Street to support utility works for the new Boggo Road station.

Construction activities

- Installing site fencing, hoarding and road safety barriers around the work areas.
- Site and utility investigations to confirm the location of current services.
- Minor finishing works including relocating man hole lids, pit rectification, and sewerage line inspections via CCTV.

Construction activities are subject to weather, unforeseeable conditions and approvals.

What to expect

On Railway Terrace and Kent Street, you can expect:

Day and night works involving excavation and construction of new underground service lines and pits.

Use of equipment such as excavators, light vehicles, lighting towers, vacuum excavation trucks, generators, power tools and hand tools. Increased noise, lighting, and workforce presence in the area.

Project information

If you have any questions, call 1800 010 875 to speak to a member of the Cross River Rail Tunnel and Stations team.

Traffic and pedestrian impacts

- Short term lane closures will be required in the work areas (refer to map).
- Access to properties and businesses will be maintained at all times.
- During traffic changes, detours and traffic control will be in place to assist motorists, pedestrians and cyclists.
- Please see map below for more information.
